

MESSAGE FROM OUR CHAIRPERSON - *CLLR PETER CHILD*

The weather certainly has been typically British this summer. Between the rain showers and sunshine, the team have been working hard to prepare the football pitches ready for the new season. The Sportshall has been busy with families enjoying the facilities and we have welcomed many new members to our tennis courts. The new bus service is up and running. We are pleased to hear so many people have been using it since its launch in July. Just remember, this service does need to become self-funding, therefore use it or lose it.

We have received some wonderful photos of the wildflowers and look forward to the autumn colour that will come.

NO 44 BUS

Following its launch in July the new number 44 bus service is proving to be a well-used service. The Parish Council are proud to have been a sponsor and hope that the service can become self-funding. For all enquiries regarding this service please contact the telephone number at the bottom of the published timetables as the service is independent of the Parish Council.

PARKING AT HILTINGBURY

Due to the extensive building works taking place at Hiltingbury School by Hampshire County Council, an area of parking within the Sportshall car park will be reserved for school staff only. Please avoid parking within the bottom left-hand corner of the car park. This will be just for the duration of the building works, and we appreciate your patience whilst the work is on-going.

FRYERN COMMUNITY ASSOCIATION

Every Friday the Fryern Community Association (FCA) takes over Fryern Pavilion. With a full calendar of events the Association works very hard to bring something new to the local community. Why not pop along on a Friday at 10am for coffee and check out their noticeboard for details of upcoming events. Alternatively visit their website at www.the-fryern-community-association.org

PENNINE WAY

For many years now Pennine Way recreation ground has struggled with being waterlogged, even through the summer. Over the years we have endeavoured to maintain the park and paths but have always known more was needed. In recent times, the Parish Council has been engaging with Southern Water, the Environment Agency and HCC to find the possible cause and a viable solution. We are working hard to improve this green space for all who use it.
